CIS: sustained commercial momentum in Q3 2019

Three months after announcing contracts recently won totaling in US\$160 million, CIS confirms its commercial momentum with the signature of **US\$136 million in new contracts** and the opening of a new country of operation. These successes allow the Group to consolidate its global positions.

- In the **Democratic Republic of the Congo (DRC)**, which has the largest cobalt reserves in the world, CIS has won two new major contracts in the mining sector. CIS operates in the Katanga region, the economic heartland and the country's main mining reservoir. CIS has also renewed a historic offshore oil contract.
- Building on its relationship with Europe's leading independent oil and gas group in the DRC, CIS has further strengthened its presence in Africa by **establishing operations in a new country, Gabon**.
- In addition, CIS continues its growth momentum in **Algeria**, through its subsidiary CIEPTAL, with the signing of new service contracts with its historical client as well as with a private operator in the Hassi Messaoud area.
- In **Niger**, a leading mining client renewed its confidence in the Group.
- In **Burkina Faso**, CIS was selected by the US Embassy after a very broad consultation to provide catering services.
- In **Bolivia**, CIS has strengthened its development programme by winning two major contracts: one concerning the oil production site of a public company and the other for a private drilling company.
- CIS continues its expansion in **Kazakhstan** with leading operators in the mining and oil sectors.
- Finally, in **Russia**, CIS has just won a new contract as part of a project to build a large-scale mine.

Integrated Life Support Services

PRESS RELEASE

These new commercial successes combined with the many consultations in progress further demonstrate the relevance for the Group of the ARISE strategic plan and its expanded geographic reach.

On that basis, CIS confirms its target for sustained growth in 2019.

About CIS

CIS Group supports the major players in the hydrocarbon, mining, construction and defence sectors at every stage of their projects, either in urban, industrial, offshore and onshore most isolated environments. As a provider of integrated services, CIS has developed a complete range of turnkey solutions (catering, accommodation, facility management, support services) to bring comfort and safety to residents, and contribute to the performance of our customers through the daily management of their sites

Present in 21 countries with more than 220 operating sites and a worldwide staff today numbering more than 11,800, CIS has a strong commitment to contributing to the economic and social development of the local populations and countries where it operates.
