A dynamic start of 2019

Opening of a new country and acceleration of the commercial conquest

Since the beginning of 2019, CIS has signed \$ 160 million in contracts. These successes occur in very promising markets for the Group:

- In the oil sector of Algeria, CIS, through its subsidiary CIEPTAL, was awarded the management of 30 rigs in the area of Hassi Messaoud;
- In Mali, CIS had a recent success with a Canadian gold producer;
- In Senegal, CIS continues its expansion in Sub-Saharan Africa, starting new activities with a leading mining group and new client for the Group;
- In the Democratic Republic of Congo, CIS has renewed a major contract in the oil sector;
- In Brazil, CIS is consolidating its leadership in the offshore sector. In addition to the acquisition of Alternativa and Beta, CIS Group was awarded the management of 7 platforms following an international call for tenders;
- In Kazakhstan, following an international call for tenders, CIS has renewed a major contract with a mining operator;
- In Russia, where the Group has been strongly present for 27 years, CIS supports one of the world's leading mining companies as well as the second largest private oil company worldwide through a new contract in western Siberia.

These successes, combined with the many ongoing consultations, reinforce the relevance of the ARISE Group's strategy and its extended geographical positioning.

About CIS

CIS Group supports the major players in the hydrocarbon, mining, construction and defence sectors at every stage of their projects, either in urban, industrial, offshore and onshore most isolated environments. As a provider of integrated services, CIS has developed a complete range of turnkey solutions to bring comfort and safety to residents and contribute to the performance of our customers through the daily management of their sites. CIS is present in 20 countries with more than 200 operating sites and accounts for more than 11,000 employees worldwide. CIS is committed to contribute to the economic and social development of the local populations and countries where the Group operates.
