Marseille, May 31, 2022

# Major commercial achievements in West Africa and Sub-Saharan Africa

**CIS has strengthening its position in Africa, where the Group has been established for nearly 30 years, by signing two major contracts with international players in the energy sector.**

### Success of a new offshore contract in West Africa

This new contract is part of the Grand Tortue Ahmeyin (GTA) project for the development of two offshore gas fields on the maritime border between Senegal and Mauritania.

The project, considered one of the largest in the world, is expected to supply Liquefied Natural Gas for global export starting in 2023.

CIS will provide catering, housekeeping, and facility management services for 400 people living on the platforms.

This project reinforces CIS' position in these two strategic West African countries, Mauritania and Senegal, and consolidates its offshore experience.

### Renewal of a strategic contract in the Democratic Republic of Congo

This new success confirms the relationship of trust that CIS has with its clients and, in particular, with this very important company, which is developing its onshore and offshore activities in the Democratic Republic of Congo.

This country, where CIS has been operating for more than 13 years, also has some of the most important mining resources in the world.

**These two successes confirm CIS's position as a leader in position in camp facilities management.**

### About CIS

*CIS was created in 1992 by its CEO Régis Arnoux. The CIS Group supports major players in the oil and gas, mining, construction, and armed forces sectors at every stage of their projects, in the most remote offshore and onshore environments. As a service integrator, CIS has developed a complete range of services and turnkey solutions to bring well-being and conviviality to the residents of our living bases and thus allow our clients to concentrate on their specific activities.*

*With a presence in 19 countries and nearly 290 operational sites, CIS currently employs more than 15,000 people worldwide and is strongly committed to the economic, social and community development of the populations and countries in which it operates.*
