PRESS COMMUNICATION

Marseille, April 8, 2020

Situation update on the impact of Covid-19

In a press release dated March 27, 2020, CIS provided information on the very limited effects of the Covid-19 crisis. CIS recalls that the Group's priority is above all the health of its employees at its head office and in its subsidiaries. CIS has thus implemented all necessary measures to protect all its teams, who ensure with consistency and determination the continuity of activities.

In response to this situation, the Group has also implemented disinfection and cleaning services. These disinfection services are offered to all its customers who deem it necessary.

The Groupe takes stock of the activities again.

With the global spread of this virus, the situation is very different dependent on the geographical areas and the nature of the activity of the customers. Overall, most sites have had little or no impact with the exception of Brazil, Chad and Algeria.

In Brazil, the first customer has decided to reduce the number of employees mobilized on its oil platforms to 40%. In Chad, on the main operating site, the customer has decided to reduce its workforce by more than 30%. In Algeria, CIS is also experiencing downsizing at some sites. Compensation negotiations are initiated with all affected customers.

In addition, the Group is continuing its commercial development and is awaiting imminent decisions on certain consultations.

Finally, CIS has stepped up its socio-economic actions with local populations close to its operating sites, offering, in particular, hygiene and cleaning products as well as personal protective equipment.

Any new information will, if necessary, be the subject of a press release.

Integrated Life Support Services

PRESS COMMUNICATION

About CIS

The CIS Group supports major players in the hydrocarbon, mining, construction and defence sectors at every stage of their projects, in the most isolated urban, industrial, offshore or onshore environments. As a service integrator, CIS has developed a full range of services (restaurants, hotels, facility management and support services) to bring all the comfort and safety to residents and contribute to the performance of its customers, in the day-to-day management of their sites.

Present in 20 countries and at nearly 2,300 operational sites, CIS now employs more than 12,500 people worldwide and is very committed to the economic, social and community development of the people and countries in which it operates. 2
