### CIS sponsors the MJ1 organization and its cultural projects

CIS supports the cultural projects promoted by the City of Marseille through its philanthropic action towards the organization MJ1. This organization encourages all initiatives and projects for the development of our region and promotes metropolitan excellence.

"MJ1" is a 22,000 m<sup>2</sup> reinforced concrete two storey hangar, built in 1923 by the Eiffel Company (Marseille, La Joliette (2 °), France). The management of the site has been entrusted to the organization MJ1 by the City of Marseille. The objective is to federate the private and public actors of the territory organizing events and cultural programs of quality (exhibitions, animations ...) in this renovated place.
